

Ham fair 2013 A1 CLUB Project List

1	QRP Antenna Tuner ver.2013 - EFHW		
Feature	For half-wave wire, no ground/counterpoise required. Performance equivalent to full-sized dipole, covers 7 ~ 28MHz		
Q'ty	50	Price	3,000JPY

2	QRP Antenna Tuner ver.2011 - T match		
Feature	General-purpose antenna tuner, covers 3.5~28MHz, Easy to use. Encore sale of 2011 version.		
Q'ty	30	Price	3,000JPY

3	QRP Antenna Tuner ver.2012 - Z match		
Feature	Applicable for balanced antenna, covers 3.5~28MHz Encore sale of 2012 version.		
Q'ty	20	Price	3,000JPY

4	CQ Parrot 2		
Feature	Paddle function is added in addition to straight & bug key. Inserting the attached diode into straight or bug key line, the keyer automatically recognizes the key in operation so it is best matched for A1 CLUB combo key. CQ Parrot 2 has 2 memory channels (max.250 strokes/ch) instead of 1ch memory of the old version. Mute and repeat settings are to me stored in EPROM so that user setting is kept.		
Q'ty	50	Price	3,000JPY

5	CQ Parrot version up kit		
Feature	This is an upgrade kit from the old version to the CQ Parrot 2.		
Q'ty	30	Price	1,000JPY

6	Touch Keyer Kit (PTK2011)		
Feature	Encore sale of version in 2011		
Q'ty	36	Price	1,000JPY

7	A1 CLUB KEY Kizuna 2012 (final sale)		
Feature	Straight & paddle combo style key specially designed for A1CLUB. 260sets had been sold last year. The specification is same with the standard version in 2012 except for the change in its surface treatment from mat finish to hairline finish. For details, refer to http://www.a1club.net/clubkey/index_e.html		
Q'ty	40	Price	Member:18,000JPY, Non-member:20,000JPY

Plus! You might have to encounter something special at our booth. Please come to booth C-066!
